

90/90 RETRACTABLE BELT FITTING INSTRUCTIONS

NOTE

When installed in accordance with these instructions, this component will provide the required degree of protection to the wearer in most type of accidents.

- The seat belt assembly and any accessories should be installed by a competent mechanic or an authorized seatbelt restraint fitter at an appropriate fitting station.
- These fitting instructions should be read carefully before commencing installation of belt.

EXTENSION BRACKET INFORMATION

- The Mounting Bracket attached to the retractor allows the retractor to sit inside a cavity on a 90° angle as shown in Fig. 1.
- Attach the Mounting Bracket to the retractor as shown in Fig. 2.
- Where required the anchor plate can also be attached to the Mounting bracket as shown. (Fig. 2).

WARNING!

- To the installer: Please read the whole of the instructions for installation carefully and consult Klippan Safety Products in the event of doubt as to the method of installation.
- Ensure that the correct installation diagram is followed for your particular vehicle.
- Install the belts directly in accordance with instructions to obtain maximum efficiency. Any deviation could adversely affect the performance of the belt in an accident.
- Any work carried out relating to the modification or creation of new structural seatbelt mounting points needs to be checked and approved by an authorized or qualified engineer.
